

GRAVEDGR

BIO

GRAVEDGR, pronounced "gravedigger," is no one new to the harder sounds of music. Starting at the age of 15, he began working at his local cemetery digging graves with his dad. From balancing digging graves to creating some of the hardest sounds of bass music, he created a distinct sound like no other. The dark elements of the cemetery and his hands-on experience digging graves, led him to implement these thoughts and ideas into his music and art. GRAVEDGR plans on releasing his anticipated album this fall.
